A.I.R. Concentrated Decoction™ was created to allow the lungs to grasp the Qi, resolve, eliminate and transform the phlegm, as well as open the nose. The decoction was originally designed at the request of a Holistic Pediatrician who was looking for something to stop coughs and clear infections while also tasting good. With well over 750,000 doses delivered and counting, A.I.R. is a great addition to your treatment protocols.
